

Suggested Itineraries

To assist with planning your day, we have drafted up a few sample itineraries for you to use. We recommend you check out the event map and winery activities in the Event Program, and then list out the wineries you'd like your group to visit within the below timeslots.

Alternatively, you're welcome to create your own itinerary of tasting time-slots.

Once you have planned your route and times, please call us to book in your group's itinerary.
